

COLORED ADHESIVE COATINGS

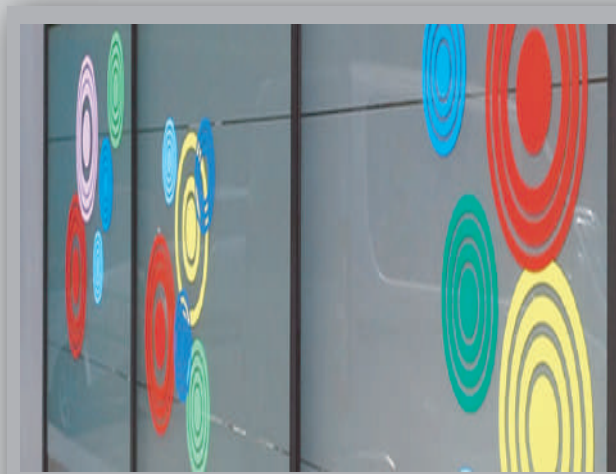

Easy to apply, beautiful to look, perfectly adhesive: **Colored adhesive coatings** are the best you can imagine to add a touch of class to your product.

The **colored adhesive coatings** are distinguished for:

- aesthetic appearance
- easy application
- thickness

The **colored adhesive coatings** find a useful employ in **decoration** and **coating** of fittings, platforms, floors, decorative panels, display cases, exhibitors, objects, etc. and they are suitable to be printed for the production of plates, written labels, panels and adhesive labels.

All colored adhesive coatings are coated with standard permanent adhesive for applications on polish and plane surfaces and with ultra permanent reinforced adhesive for applications also on surfaces that are not perfectly polish and angular (cylinders, columns, angles, etc.)
